# MANUFACTURING

We manufacture more than 50 commercial vehicle bodies every week, including GRP boxes, Curtainsiders and dropsiders.

With 100,00 square feet capacity across three modern facilities, we provide commercial vehicle bodies to sole traders and blue chip Companies alike.

Our box bodies are tailor-made to meet each client's exact requirements, with technical designs that ensure efficiency and longevity.

Our Bodies are bespoke for every client and boast a comprehensive range of optional features, including lightweight aluminium versions to maximise payloads.

Every vehicle is checked and tested rigorously. Clients are always welcome at our facilities to see our design and production team in action.

# GRAPHICS

Our specialist graphic and livery team offers a complete design and application service for national/regional fleets, or for single vehicles, to suit each clients needs.

We specialise in vehicle wrapping, computer - cut graphics, livery repairs and application to all types of vehicles, including curtainsiders.

With the latest design software and large format printing technology we are able to provide a solution for every customer.

By using the highest quality materials - such as 3M and Avery - We'll ensure visual impact, durability and longevity.

Don't have your own design? Not a problem - We can work with your team to make sure that your branding and identity is perfect every time.

# PASSPORT

We can take the strain of compliance with the European Community Whole Vehicle Type Approval (WVTA) scheme by welcoming you to our Bevan Passport initiative.

Commercial vehicle operators that hold a Bevan Passport won't need to worry about conforming to WVTA regulations about tyres, emissions, braking systems or any other aspect of the directives.

A Bevan Passport proves that your vehicle meets or exceeds the relevant environmental, safety and security standards.

Our Quality Management Systems ensure directive compliance and provide the certification you need to avoid excessive costs and Unnecessary risks to your business.

Just contact our team to find out how the Bevan Passport can keep your vehicles on the right side of the law.

# From humble beginnings...

1976

## Business started in Brierley Hill

The Bevan story began in the mid-seventies, when freight transport expanded to fill the rapidly growing road network in the UK.

1979

## Relocated to larger premises in Oldbury

Three years of rapid growth and full order books resulted in a need for greater capacity, and we haven't slowed down since.

1988

## Relocated to an independent site in Blakeley Hall Road

Another great leap forward saw us move to our own site, where we set up our facilities to provide exactly what our customers needed.

## Set up external paintshop

The time was right to focus on specialities and increase our capacity further still, so our external paintshop was the ideal solution.

## Set Up Bevan Aftercare

Another string to our bow was established when our range of aftercare services were brought together to create Bevan Aftercare.

PAINTSHOP

AFTERCARE

2003

## Purchased Welford Thomas

Our expansion continued with the purchase of Welford Thomas, which would become the first of a series of major acquisitions.

2004

2005

## Set up external repair centre

Another major investment helped us to increase the capacity of our repairs service and help more customers to stay on the road.

RESPONSE

## Bevan 21 Launch

A breakthrough in fuel efficiency and intelligent design, the Bevan21 box body applied aerodynamic principles to commercial vehicles.

2006

## Purchased second manufacturing facility on Amber Way

With demand for our bodies and vehicles increasing, we responded by increasing our output and investing in the latest technology.

## Set up Bevan Graphics

Demand for our vehicle livery services grew to such an extent that Bevan Graphics was born as an expert department with the latest equipment.

## Partnership with A&R

By joining forces with the leading accident repair and refurbishment specialists, we secured our place as industry leaders.

2009

## Purchased Supertrucks

Another string was added to our bow with the acquisition of one of the UK's most respected glass-carrying vehicle providers.

## ICON Launch

Environmental credentials for commercial vehicles don't come much higher than those of the light-weight, fuel-efficient Bevan ICON.

## Purchased PG Reeves

Another step forward saw us moving into the drinks transport sector, producing specialist vehicle bodies for multi-drop deliveries.

## Purchased Stag Bodies

Our expansion continued with the purchase of Stag Bodies, which has now entered the Bevan Group into the tipper and traffic management vehicle market. Stag Bodies is now trading under Bevan Specialist Products.

## Our History

First established in Brierley Hill in 1976, we grew rapidly during our first three years and moved to larger premises in Oldbury as soon as 1979, before setting up our own independent site on Blakely Hall Road in 1988.

## Our Evolution

Our range of services expanded to include an external paintshop, a repair centre and a second manufacturing facility. We brought welford Thomas and PG Reeves whilst also launching the successful Bevan Aftercare.

## Our Future

By launching the ICON and the Bevan 21, setting up Bevan Graphics, integrating Supertrucks and partnering up with A&R Vehicle Service, we've become one of the UK's leading specialists and the future is even brighter.

# GLASS CARRIERS

Professional, experienced and skilled, Supertrucks is the first choice for glass-carrying vehicle bodies and van conversions, low loaders space vans and much more.

Supertrucks invented the glass-carrying rack and named it the frail, after the characteristic of the material it was designed to carry safely. You'll hear glass carrying racks frail to this day.

Based in St Helens, at the heart of the glass industry, we serve both the UK and export markets. We work with high-profile, blue chip companies and sole traders alike.

Our customers base includes high-profile names such as Pilkington, IG Glass, Solaglas Saint-Gobain, Gibbs & Dandy, Float Glass Industries and Theodor Schmid GmbH, All benefit from our industry leading standards of products quality and service.
